The Effects of Mental Exhaustion.

Many diseases, especially these of the nervous system, are the products of daily renewed mental exhaustion. Business avecations often involve an amount of mental wear and tear very prejudicial to physical health, and the professors, if arduously pursued are no less destructive to brain and nerve tirsue. It is one of the most important attributes of Hostetter's stomach Bittere, that it condensates for this undue loss of tissue, and that it imparts new energy to the brain and nerves. The rapidity with which it renews weakened mental ene gy and physical vitality is remarkable and shows that its invigorating properties are of the highest order. Besides increasing vita stamina, and counterseting the effects of mental exhaustion this potential medicine cures and prevents fever and ague, rheumatism, chronic dispepsia and constipation, kidney and uterine weakness and other compiaints. Physicians also commend it as a medicated stimulant and remedy.

A ST. LOUIS PHYSICIAN.

Be Tests a California Production. -His Report.

A St. Louis gentleman whose affliction was sick headaches was so surprised at their cure by Joy's Vegetable Sarraparilla, that he called it to the attention of a relative, who happened to be Dr. F. A. Barrett, the well-known St. Louis physician of 252 Shenandoah Street. The doctor saw at once that it differed from the potash preparations in that it was purely vegetable, and becoming interested, began a series of investigations, and in a subsequent letter candidly admitted its curative properties, and says:

Wishing to test its virtues further, I used it in my own family, and prescribed it for patients who required a general system regulator. As a result, I can say it is an almost absolute cure for constipation, biliousness, dyseppsia, indigestion, and sick headaches. These troubles usually come from a disturbed condition of the stomach and bowels, and Joy's Vegetable Sarraparilia is the best laxative and stomach regulator have ever seen, and as a general system corrective is almost perfection.
